

## City Seeks Airport Controller

Two open positions with the City of Torrance were announced this week. The positions, one for an Airport Traffic Controller, and the second for a senior accountant, will be filled by examination.

The examination for the airport traffic controller is to be given on Aug. 22. Deadline for filing is Aug. 16. The applicants must be high school graduates and have at least two years experience in aircraft traffic controlling. A valid Airport Traffic Control Tower Operator's Certificate is required.

Salary is from \$578 to \$637 and the residence requirement will be waived, but the successful applicant must establish residence in the city within six months.

Examination date for the senior accountant position is Sept. 9 and the deadline for filing is Aug. 30. A college degree and two years of experience, including a year of auditing experience, are required. Salary is from \$652 to \$719 per month. The residence requirement will be waived but the appointee must take up residence in Torrance within six months of appointment.

Applications may be picked up and returned at the City Hall.

## Great Western Hits New High In Loan Volume

Great Western Savings and Loan Assn. has established the largest six-month loan volume in its 36-year history, according to Elwood Teague, vice president of the loan division. Teague states that Great Western has advanced over \$80 million to qualified home owners during the period of Jan. 1, 1961, to June 30, 1961.

During June alone Great Western advanced \$20,601,717 in new loans for construction and purchase of homes.

Teague also said that Great Western is currently advancing loans at a rate of six per cent to 6 3/4 per cent compared with a rate of 6.6 per cent to 7 per cent a year ago. "We are able to do this," Teague says, "because of our increased volume in loan activity. In addition, we are vitally concerned with meeting President Kennedy's challenge of lowering interest on long term loans."

Great Western, which is the fifth largest savings and loan association in the nation, has seven major offices in southern California. Its present assets are over \$411 million.

## Jetstars Appeal to Businessmen

Pure jets will begin a mass entry into the business aircraft field early next month with the arrival of a Lockheed JetStar at The Garrett Corp.'s AirResearch Aviation Service Division, for installation of a customized executive interior.

Presently, four of these twin-engine aircraft, ordered by Ford Motor, Continental Oil, Superior Oil, and T. Eaton Co. of Toronto, are scheduled to be fitted out by AirResearch as the owners take delivery from Lockheed's plant at Marietta, Ga.

At the same time, AirResearch is negotiating with numerous other future JetStar owners for similar work at the Los Angeles International Airport facility.

Each airplane will be outfitted with a custom designed business interior and undergo individualized exterior painting.

Extensive preparation by AirResearch for the advent of this particular airplane was emphasized by construction of a full scale cabin mockup equipped with a business interior authentic to the minutest detail. The mockup gives AirResearch the benefit of specialized experience for the JetStar and serves as a realistic "demonstrator" for potential customers.
